Re: Assessment of Corrective Measures Amendment  
White Street Landfill Phase II, Permit #41-03

Dear Ms. Covington:

The Solid Waste Section has reviewed the *March 27, 2008 Assessment of Corrective Measures Report Amendment for the White Street Landfill Phase II* submitted on behalf of the City of Greensboro by S&ME, Inc. for the White Street Phase II Landfill. Contaminants in concentrations exceeding the North Carolina Groundwater Standards have been detected at the White Street Phase II Landfill, and as a result, corrective action is required. A *Phase II Assessment of Corrective Measures Report* was submitted on August 31, 2007 to the Solid Waste Section. The City of Greensboro held a public meeting on December 20, 2007 to discuss the results of the assessment of corrective measures pursuant to 15A NCAC 13B .1635.

After a re-evaluation of the possible corrective measures cited within the August 31, 2007 *Phase II Assessment of Corrective Measures Report*, the City of Greensboro decided to include Phytoremediation as one of the possible corrective measures to restore the groundwater quality and reduce the contamination at the landfill. As a result, the City of Greensboro will hold an additional public meeting to discuss the *March 27, 2008 Assessment of Corrective Measures Report Amendment for the White Street Landfill Phase II* pursuant to 15A NCAC 13B .1635. After the public meeting and in accordance of the requirements of 15A NCAC 13B .1636, the City of Greensboro then shall select a corrective measure and submit the North Carolina Solid Waste Groundwater Corrective Action Permit Modification Application. Once the Solid Waste Section has approved the selected corrective measure, please submit a Corrective Action Plan (CAP). Implementation of the approved corrective measures shall then take place in accordance with 15A NCAC 13B .1637.

Please call me at (919) 508-8500 if you have any questions or concerns regarding this letter. Thank you for your continued cooperation with this matter.

Sincerely,

Jaclynne Drummond
